Hentz Engineering Joins REI Engineers

RALEIGH, NC – REI Engineers, a leading building envelope consulting firm in the Southeast, is pleased to announce the acquisition of Hentz Engineering of Virginia Beach.

REI Engineers President Scott Hinesley, PE, RRC states this strategic partnership will join two firms that share common philosophies for providing roofing, waterproofing, and building envelope engineering and consulting services. “The integration of our firms will expand our geographic coverage and provide our clients access to the best building envelope professionals in the industry” says REI President Scott Hinesley. “Hentz Engineering places great emphasis on exceptional service and design and this union allows us to combine strengths with a well-respected firm.”

Hentz Engineering will remain in operation under the same name in their Virginia Beach office. President Steve Hentz will continue to provide leadership for the high-quality services their clients have relied on for over ten years. Hentz affirms, “we are looking forward to combining resources with an outstanding firm and the opportunity for growth in new areas.” The combined multi-discipline staff has expertise in higher education, K-12, government, industrial, commercial, and healthcare engineering and consulting services.

Steve Hentz established Hentz Engineering in 2005 to provide clients with quality building envelope engineering services. Like REI Engineers, Hentz provides building envelope design services and specifications, condition assessments, investigation and testing, design review, construction administration, and quality assurance monitoring. Additional information on Hentz Engineering can be found at www.hentzengineering.com or by contacting Steve Hentz at (757) 961-7224.

REI Engineers, Inc. specializes in roofing, waterproofing, building envelope, and pavement engineering and consulting services. REI’s highly trained team consists of Professional Engineers and the largest contingent of RCI, Inc. professional registrations in the United States. An employee-owned company with seven offices and more than 60 employees, REI has served the Southeast since 1997. Additional information on our services can be found at www.REIengineers.com or by contacting Scott Hinesley at (704) 596-0331.
