### **REI Engineers Expands To Tampa, Florida**

**Raleigh, NC** – REI Engineers, a leading building envelope consulting firm in the Southeast, is pleased to announce the opening of a branch office in Tampa, Florida. “We’ve been working throughout Florida for years,” said REI Engineers President Scott Hinesley, PE, RRC. “The new office location gives REI a stronger presence in Central Florida and places our engineering and consulting services in close proximity to clients across the state.”

Experienced building envelope consultants Mark Renninger, PE, RRO and Randy Moore, EI will lead the efforts of the office located at 10150 Highland Manor Drive, Suite 200, Tampa, FL 33610. Mark holds a Bachelor of Science in Civil Engineering from the University of Central Florida and Randy holds a Bachelor of Science in Mechanical Engineering from the University of South Florida.

This office was established in response to a growing need for REI’s services in Florida on projects ranging from commercial multi-facility owners to school districts and federal facilities. Renninger and Moore provide building envelope design, condition assessments, investigation and testing, construction administration, quality assurance monitoring, as well as provide design review and act as subject matter experts for general contractors and architects. The Tampa office focuses on commercial, government, education, and healthcare projects.

REI Engineers, Inc. specializes in roofing, waterproofing, building envelope and pavement engineering and consulting services. REI’s highly trained team consists of Professional Engineers and the largest contingent of RCI, Inc. professional registrations in the United States. An employee-owned company with five offices and more than 60 employees, REI has served the Southeast since 1997. Additional information on our services can be found at [www.REIengineers.com](http://www.REIengineers.com) or by contacting contact Mark Renninger at (813) 731-7843.
